Trusted Quality Since 1972...

For more than 50 years, we have combined our milling expertise with advanced production technologies and a strong commitment to food safety, bringing our heritage into the future.

Operating with fully automated Industry 4.0 production systems, we deliver uninterrupted and reliable supply to global markets with a daily wheat milling capacity of **4,400 tons** and a daily flour production capacity of **1,600 tons**.

At the heart of our production process is our **Double Sifting Technology**, which gives our wheat flour a **silkier and more homogeneous texture**. Supported by advanced R&D laboratories and rigorous quality control systems, we ensure **consistent high quality, reliable performance, and professional results across a wide range of applications**.

Located only **7 km from the port** and close to key raw material sources, we provide fast, flexible, and reliable logistics solutions. By combining over half a century of milling expertise with Industry 4.0 automation technologies, we proudly deliver trusted flour solutions to partners around the world.
